

Nectare & Root

Covid 19

In light of the ever changing landscape of this pandemic, we are adjusting how we do things here at Nectare & Root.

We have made changes in the last few weeks, and are able to offer all items from our website now-however color selection may be limited, and we ask that you try to be flexible and we will do our best to fulfil your requests.

We have always loved elopements, and now more than ever they are so important to all the couples out there who won't let this stop their celebration. We can do consults via phone, email or video to help you plan your new big day.

We are keeping safety and health the top priority and disinfecting work spaces, and vehicles continuously. And following all of AHS recommendations. Delivery and pick up options are contactless, and delivery within Cochrane is free. (a small fee of \$10 for Calgary)

Sincerely and with Gratitude
Nectare & Root

“Where flowers bloom , so does hope”
